Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

PATENT OFFICE Patents and Designs

Calcutta, the 24th May 1958
Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

8th May 1958

63999. Klockner-Humboldt-Deutz Aktiengesellschaft. Jaw-crusher with toggle-lever drive. (16th April 1958).

64000. Mid-Century Corporation. Process for the preparation of heteroaromatic carboxylic acid.

64001. Creed & Company Limited. Tape splicing mechanism. (19th July 1957).

64002. Count Alain de Villegas de St Pierre Jette. Resistance element and construction elements applying same.

64003. Aktiengesellschaft Fur Unternehmungen Der Eisen-Und Stahlindustrie. Rail cars, in particular ladle cars, mobile metal mixers or similar transfer cars for molten material.

9th May 1958

64004. N. H. Awtade. Punctured proof steel belt for cycle motor, etc.

64005. Rohm & Haas Company. Method and assembly for non-exchange treatment of liquids.

64006. American Cyanamid Company. Fungicidal compositions, preparation and use thereof.

64007. Schenley Industries, Inc. Process for the production of bacterial enzymatic product. (9th August 1957).

64008. Societe Des Usines Chimiques Rhone-Poulenc. New imidazole derivatives and processes for their preparation.

64009. Socony Mobil Oil Company, Inc. Inhibition of carburetor icing.

64010. Howa Kogyo Kabushiki Kaisha (known as Howa Machinery, Limited). Apparatus for fixing top roller arm of spinning machine.

64011. F. Schill and F. Konarek. A method and device for the manufacture of cellular-glass.

64012. P. G. Shastri. Super heated gasified flame producing stove.

64013. P. G. Shastri. Multifuel stove or "Thriguni Choola".

10th May 1958

64014. Shah Engineering Works. Improvements in the conversion of cop motion to roving motion in ring frame.

64015. H. H. Mansoori, Y. H. Mansoori, N. H. Mansoori, I. H. Mansoori and Ismail H. Mansoori. Modification and improvement in the square foot picker.

64016. Stamicarbon N. V. Process of purifying a suspension of fine magnetizable particles in a liquid.

64017. Leicester, Lovell & Company Limited. Improvements in or relating to curing agents for epoxide resins. (17th May 1957).

64018. Imperial Chemical Industries Limited. Improvements in and relating to the treatment of polymers. (31st May 1957).

12th May 1958

64019. United States Atomic Energy Commission. Coaxial control rod drive mechanism for neutronic reactors.

64020. Imperial Chemical Industries Limited. Polymerisation of organic isocyanates. (12th June 1957).

64021. Imperial Chemical Industries Limited. Photographic developers. (27th May 1957).

64022. Polyplastic. Process for improving the properties of a polymer. (3rd February 1958).

64023. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to chemical compounds.

64024. Chemical Construction Corporation. Method and apparatus for carrying out exothermic vapor phase reactions.

64025. Columbia-Southern Chemical Corporation. Process for making sodium carbonate and acetylene.

64026. Dorr-Oliver Incorporated. Rapid closure locking means for pressure vessels.

64027. Easan Electrical (Proprietary) Limited. Improvements in or relating to electrical regulating system. (14th May 1957).

64028. Radio Corporation of America. Semiconductor devices.

64029. Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny and Cirey. Improvements in the manufacture of fibres from thermoplastic materials.

64030. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process for the preparation of alkyl-(aryl) mercapto-methylenamides of O, O-dialkyl-thio(dithio)-Phosphorylacetic acids, with pesticidal activity.

64031. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to objects such as crucibles, boats, jigs and the like of graphite for use with the manufacture of pure substances and objects.

64032. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a glass feeder intended for a continuous, upward supply of glass to a system for drawing glass tubes or rods.
64033. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of reducing tungsten compounds by the addition of a so-called "Dope".
64034. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a permanent memory storage comprising magnetically bistable cores arranged in rows of M-cores each.
64035. L. Ehrenburg. Waterproofing agents for cement or concrete mixture and their method of production.
64036. J. P. Subramoniam. Improvements in or relating to water taps.
64037. Dr. R. S. Dubey and Walchandnagar Industries Limited. Improvements in or relating to the refining of sugarcane wax.
64038. Ciba Limited. Pharmaceutical preparations. (Divisional date 9th April 1957).
64039. Ciba Limited. Pharmaceutical preparations. (Divisional date 8th November 1957).
64040. Metallurgical Resources, Inc. Improvements in process for treating complex ores.
64041. Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny and Cirey. A process for improving the mechanical properties of polyvinyl chloride and products obtained by the process.
64042. Mrs. Beryl Alice Enid De Penning. Improvements relating to sliding clasp fasteners.
64043. Ing. J. Bottger. A piston for internal combustion engines, particularly for self-ignition engines having combustion chambers adapted for direct fuel injection.
64044. Stahlgruber, Otto Gruber & Co. Method of and means for repairing tubeless tyres.
64045. F. A. Hughes & Co. Limited. Protection of ships' hulls. (22nd May 1957).
- 13th May 1958
64046. PECHINEY Compagnie de Produits Chimiques et Electro-metallurgiques. Vaporization device.
64047. United States Atomic Energy Commission. Boiling water reactor.
64048. Glaxo Laboratories Limited. Improvements in or relating to antibiotics. (24th May 1957).
64049. The British Oxygen Company Limited. Treatment of perishable foodstuffs. (7th June 1957).
64050. Imperial Chemical Industries Limited. New copper-containing monoazo dyestuffs. (5th July 1957).
64051. Allen & Hanburys Limited. Improvements relating to surgical operation tables. (26th November 1956). (Divisional date 12th April 1957).
64052. J. R. Geigy A-G. Process for the production of 7-triazinylamino-3-phenyl coumarins.
64053. Ellenberger & Poensgen G.m.b.H. Pushbutton-operated overload switch.
64054. European Research Associates S.A. Process for the preparation of substituted benzenic compounds and products obtained therefrom. (16th May 1957).
64055. The British Drug Houses Limited. Organic compounds. (21st May 1957).
64056. The British Drug Houses Limited. Organic compounds. (21st May 1957).
64057. The Wellcome Foundation Limited. Improvements in and relating to the manufacture of diquaternary compounds. (28th May 1957). (Addition to No. 57549).
64058. The Yale and Towne Manufacturing Company. Lifting mechanism for industrial truck.
64059. The Yale and Towne Manufacturing Company. Light duty hydraulic truck.
64060. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to semi-conductive devices. (21st May 1957).
64061. A. Husain. Improved folding cot.
64062. British-American Tobacco Company Limited. Improvements relating to the prevention of tarnish of bronze printing. (15th May 1957).
64063. Ciba Limited. A new sulphonamide of the pyridazine series and process for its manufacture.
64064. Ciba Limited. Heat hardenable compositions comprising epoxide compounds and dicarboxylic anhydrides.
64065. Fichtel & Sachs A.G. Gear hub for pedal cycles or the like.
64066. International Combustion (Holdings) Limited. Improvements in or relating to oil burning furnaces. (21st May 1957).
64067. International Combustion (Holdings) Limited. Improvements in or relating to oil burning installations. (21st May 1957).
64068. Etablissement Pour Matériaux De Construction and F. L. Smidth & Co. A/S. Apparatus for manufacturing a fibrocement web suitable for manufacturing slabs and pipes.
- 14th May 1958
64069. Compagnie Generale De Telegraphie Sans Fil. Improvements in electromagnetic detector devices. (21st May 1957).
64070. Merck & Co., Inc. Chemical compounds and processes of preparing the same.
64071. Stamicarbon N. V. Process of preparing urea.
64072. N. V. De Bataafsche Petroleum Maatschappij. Improvements in the manufacture of petroleum coke and graphite.
64073. D. Napier & Son Limited. Assemblies including helical splines and coil springs. (20th May 1957).
64074. The General Electric Company Limited. Improvements in or relating to low pressure electric discharge lamps. (21st May 1957).
64075. Godrej Soaps Private Ltd. Improvements in and relating to containers for shaving sticks.
64076. The British Tabulating Machine Company Limited. High capacity data processing technique.
64077. Jaswant Singh & Sons. Plunger pump.
64078. P. C. Madar. Improvements in or relating to hurdles.
64079. P. de Ruggieri. Method for the preparation of 17 α -homologues of the 19-nor-testosterone and new relative intermediate compounds.
64080. E. I. Du Pont De Nemours and Company. Textile product.
64081. Universal Conveyor Company Limited. Endless belt conveyor. (16th May 1957).
64082. Ciba Limited. Process for the manufacture of new hydroxamic acid esters.
- Alteration of Date**
58582. The claim to priority date 7th October 1955 has been abandoned and the application dated as of 6th October 1956, the date of filing in India.
- 62680 Ante-dated to 14th May 1957 under Section 5 of the Act.
- Applications Accepted**
- Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.
- A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.
- If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

58195. Chas. Pfizer & Co. Inc. Antibiotic compositions and preparation thereof. Accepted on 13th May 1958.

The composition comprises a penicillin antibiotic (10-90 per cent) and an oleandomycin antibiotic.

58255. Indian Oxygen Limited, formerly known as The Indian Oxygen and Acetylene Company Private Limited. Apparatus for remotely controlling a prime mover driving a welding generator. (30th August 1955). Accepted on 9th May 1958.

Comprising a solenoid, an electric battery switch means included in a circuit between the battery and the solenoid, switch means being mounted on a welding electrode holder.

58372. D. K. Thakur. Improvements in or relating to devices for inserting catamenial devices into vaginal canal. Accepted on 13th May 1958.

Comprising a tube having absorbent material with a net or linen casing at one end and another tube telescoped into the first tube at the other end and a cap fixed at free end of inner tube for holding card secured to net or linen casing by a slot on the side of the cap through which card passes, the slot being so sized that card is slidably held at the slot.

58582. Transcontinental Development Company Trust Reg. Improvements in the production of tea concentrates. [Addition to No. 54105]. Accepted on 8th May 1958.

Comprises extracting into aqueous solution water-soluble constituents of green leaf, oxidising the constituents in solution by heating, initially evaporating under vacuum 3 to 4 per cent of said solution and collecting and retaining separately the resulting distillate, concentrating said solution and restoring to the heavy concentrate said separately retained distillate.

58628. Societe Nouvelle Des Etablissements Brandt. Improvements in and relating to foldable fin arrangements for projectiles. Accepted on 17th April 1958.

Each of fins mounted pivotally on central body of rocket or projectile comprise two members connected together for pivotal movement.

58874. The General Electric Company Limited. Improvements in or relating to refrigerator condensers, and refrigerator condensers combined with compressors. (24th November 1955). Accepted on 10th May 1958.

Comprising at least one heat exchange tube and at least one heat exchange fin extending as a flange running longitudinally of said tube and formed integrally with at least a longitudinal section of the tube.

58884. General Aniline & Film Corporation. Improvements in or relating to amine-formaldehyde resin composition. Accepted on 14th May 1958.

Comprises a mixture of a melamine formaldehyde or urea-formaldehyde resin and a polymer of N-vinyl Pyrrolidone.

58969. Messrs. Devidayal Stainless Steel Industries (Private) Limited. Improved pocket tiffin or lunch box and the like. Accepted on 8th May 1958.

Comprises two rectangular containers, the smaller one being transversely fitted at one side of the larger container and having being locking means, rubber rollers and a sealing gasket.

58969. Imperial Chemical Industries Limited. New hydantoin compounds. (23rd December 1955). Accepted on 8th May 1958.

A hydantoin compound is treated with an alkylating agent to effect N-alkylation.

59020. J. R. Geigy Aktiengesellschaft. 1, 2-diphenyl-3, 5-dioxo-pyrazolidines and process for their preparation. Accepted on 14th May 1958.

4-alkylidene 1, 2-diphenyl-3, 5-dioxo-pyrazolidine is reacted with an alkyl-magnesium halide and the addition compound hydrolysed.

59056. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. High melting ethylene polymers. (3rd December 1956). Accepted on 12th May 1958.

Polymerising in presence of solid product obtained by contacting a solid microcrystalline halogen compound or group IVA, Va or VIA of Periodic Table with organometallic compound of a metal of group II or III.

59062. The British United Shoe Machinery Company Limited. Improvements in or relating to machines for vulcanising soles to shoe bottoms. (2nd December 1955). Accepted on 8th May 1955.

Comprising a carrier for a foot on which a shoe is supported, the carrier occupying raised position relative to moulds, the foot is mounted on a carriage slidable along the carrier when the latter is in raised position, to carry the foot from the moulds and there being means by which foot can be turned into upwardly extending position for facilitating removal of a shoe from it or placing a shoe thereon.

59076. General Aniline & Film Corporation. A process for preparing a sheet-like product from inorganic stock material. Accepted on 8th May 1958.

Incorporating in inorganic stock material minor amount of water-soluble vinyl pyrrolidone-containing polymeric substance.

59153. British Telecommunications Research Limited. Improvements in or relating to electrical signalling systems in or relating to electrical signalling systems particularly telephone or like systems. (22nd December 1955). [Addition to No. 55859]. Accepted on 12th May 1958.

Employing a high speed register device of the magnetic drum type.

59374. The Firestone Tire & Rubber Company. Tire and rim combination. (8th January 1957). Accepted on 12th May 1958.

Conical tire bead seat slopes axially and radially at an angle 15° to 20° with the axis of the rim and has a removable side flange.

60004. Mrs. Claire Farrell Michailoff. Heat insulated travelling bag. Accepted on 8th May 1958.

A double walled sack having the annular space between the two walls filled by pads made of mineral wool encased in 'Polythene'.

60481. J. Handley. Improvements in or relating to typesetting printing telegraph apparatus. (18th May 1956). Accepted on 14th May 1953.

Comprising typehead, lead screw rotation causing typehead to traverse across a platen, means for driving lead screw through a friction clutch, a ratchet, mounted on lead screw, a pawl engaging the ratchet and means for withdrawing the pawl from engagement with ratchet to effect letter feed operation.

60504. Imperial Chemical Industries Limited. An improved process for shaping resins. (18th May 1956). Accepted on 12th May 1958.

Running aqueous resin suspension into porous mould, removing and sintering cast formed.

60711. Aktiebolaget Bahco. A control valve for gaseous fuel burning appliances. Accepted on 8th May 1958.

Comprising a valve casing including a valve chamber, a fuel inlet and a fuel outlet a valve control member, control member closing the inlet when in one end position and upon movement towards the other end position.

60715. Aktiebolaget Bahco. Improvements in or relating to gas burning stoves. Accepted on 8th May 1958.

Gas supply conduit to the burner as well as the lower part of the burner housing are formed directly in the hearth plate which is perforated.

60956. Rosan Engineering Corp. Sheet metal fastener. Accepted on 8th May 1958

Fastener having a cylindrical body adapted to extend into an aperture, a flange and a recess adjacent the flange, upon compression of the flange and the sheet element, the material of the element is forced into the recess.

61413. Dr. R. S. Dubey and Walchandnagar Industries Limited. Improvements in or relating to the refining of waxes Accepted on 8th May 1958.

By subjecting the wax to the action of chlorine gas in the presence of water.

61711. PROSIMACFI. Process for treating industrial liquids with measured quantities of solid products, and apparatus for carrying out this method. Accepted on 8th May 1958.

Causing the liquid to run between its supply point and point of utilization, along an inclined plane in contact with the solid treating product thereby avoiding saturating the liquid with the product.

- 61998 Carbodies Limited Improved pressing apparatus. (26th October 1956). Accepted on 14th May 1958.

Ridge or recess or both are at least in part, formed by additional members which are laterally adjustable whereby spacing between side walls of the ridge and recess can be varied.

62014. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to dry-shavers comprising a removable or tiltable cutting head Accepted on 8th May 1958

Only one member is provided for securing the cutting plate and enclosing the cutting member.

62069. D. Sebel & Company Limited Improvements in stockable chairs Accepted on 12th May 1958.

A pair of inverted substantially V-shaped members disposed at the sides of the chair and each constituting a front leg and a back leg of the chair, an inclined back member secured to portions of inverted V-shaped members constituting back legs at points below apices.

62291. Dr C Otto & Comp. G.M.B.H. Device for regulating the size of the connecting openings between regenerator and sole flue in half-divided by-product ovens. Accepted on 14th May 1958.

Two full length concentric pipes extending parallel to the sole flue which are movable relatively to each other and in which group of parts assigned to each other are arranged.

62310. Mechanical Products Inc. Improvements in and relating to electric circuit breaker type switches Accepted on 14th May 1958

Comprising plurality of circuit breakers each including housing, movable contact means, means for automatically moving contact means responding to current overload, a pair of terminals for each circuit breaker, conduit interconnecting certain of said terminals and at least two terminals of the unit connectible in electric circuit.

62520. Megator Pumps and Compressors Limited Improvements in fluid pumps or compressors. (13th December 1956) Accepted on 8th May 1958.

Characterised by an automatic non-return valve associated with each cylinder and arranged to operate in series with controlled delivery port.

62568. Sadhu Singh & Sons Chaff cutting machines. Accepted on 14th May 1958

Inside the housing of end bracket is formed an annular groove to receive lubricant and on the driving shaft at the groove is fitted a ring chain which communicates the lubricant from the groove to the shaft.

- 62641 National Malleable and Steel Casting Company. Improvements in or relating to lid assemblies for railway journal boxes. Accepted on 8th May 1958.

Attaching means for attaching lid member to the box comprises a torsion spring having a pair of spaced coil portions for connecting lid to associated hinge pin.

- 62680 J. Handley. Improvements in or relating to type printing telegraph apparatus. (18th May 1956). (Divisional date 14th May 1957). Accepted on 14th May 1958.

Comprising shaft, means for driving it through frictioned clutch, a pawl engaging with a ratchet mounted on the shaft and preventing rotation thereof, means for withdrawing this pawl from engaging the ratchet to permit rotation of the shaft and spring means for advancing the pawl to meet succeeding tooth of the ratchet.

62751. Council of Scientific and Industrial Research. Manufacture of cellulose carboxyalkyl ethers. Accepted on 10th May 1958.

By reacting cellulose, alkali and etherifying agent in a suspending medium consisting of ethyl alcohol.

Opposition Proceedings

The opposition entered by Societe Des Usines Chimiques Rhone-Poulenc, to the grant of a patent on application No. 54551 (cognate with 56011) made by Ciba Limited, as notified in Part III, Section 2 of the Gazette of India, dated 20th April 1957, has been treated as withdrawn.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

54313 54342. 55093 55104 55367 55390 55525. 55615 55616.
55635 55688 55744 55762 55893 55943 55944 56473. 56662.
57239. 57253. 57405 57638 57845 57873 58124. 58294. 58295.
58623 59241

Patents Sealed

56650. 56657. 56664. 56737. 56738 56748 56769. 56805. 57264.
57274 57358. 57387. 57398. 57415. 57487. 57506 57519. 57528.
57535 57566 57613 57624. 57635 57756. 57759. 57763 57824.
57952. 57953. 57958. 58412. 58509 58533 58560. 58574. 58655.
58667. 58784. 58939. 58968. 59088. 59343. 59347 59472 59495.
59500. 59536 59553. 59554. 59558. 59639. 59641. 59843. 60026.
60044. 60181 60209 60278. 60320 60370 60489. 60651. 60760.

61373. 61374. 61387. 61519. 61738 61785. 61816.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Laszlo Auer, a citizen of the United States of America, of 88, Harding Drive, South Orange, New Jersey, United States of America, Chemist seek leave to amend the name, nationality and address of the Applicant in the application and specification in respect of Patent application No 56671. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Laszlo Auerd, a citizen of the United States of America, of 88, Harding Drive, South Orange, New Jersey, United States of America, Chemist seek leave to amend the name, nationality and address of the Applicant in the application and specification in respect of Patent application No 58069. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

Renewal Fees Paid

22197. 26092. 26676. 27221. 27561. 27810. 28120. 28940. 29776.
 31065. 31192. 31193. 31882. 31968. 32625. 32734. 33645. 33870.
